

IN THE SPECIFICATION

Please amend the specification as follows:

Page 15, third full paragraph first sentence beginning with “Moreover,” please replace the that paragraph with the following replacement paragraph:

Moreover in some embodiments, one or more attribute rules 405 are included within the ~~template 405~~ template 400. The attribute rules are used by the processing set of executable instructions to extract, define, or otherwise associate information 421 from the feature image. For example in some embodiments, the attribute rules 405 are used to map the image feature 411 to a specific raw value or translate the image feature 411 to a specific raw value. As previously presented information 421, in some embodiments, is provided by using a table to map orientations of the isolated feature 411 to a specific value based on the isolated feature's 411 orientation within the defined image region 402, or in other embodiments information 421 is calculated using attribute rules 405, or in still other embodiments the information 421 is extracted by executing an OCR set of executable instructions on the detected feature 411. Further, any association, assignment, conversion, extraction, or translation associated with the identified feature 411 is intended to fall within the scope of the present invention.
